Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 16-34 and 36-37, drawn to apparatus, classified in class 248, subclass 27.1.
- II. Claim 35, drawn to method, classified in class 29, subclass 592.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as apparatus and product made. The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case there are vary ways of forming an enclosure by using metal stamping, injection molding or extrusion process.

A telephone call was made to Mr. Lin on 4/12/05 to request an oral election to the above restriction requirement, but did not result in an election being made.
